WORK EXPERIENCE

Jimmy John's

Delivery Driver

Jan 2024 – Present

Crown Point, IN

- Jimmy John's is a popular sandwich restaurant chain known for its fast delivery service and fresh ingredients.
- Managed timely food deliveries with accuracy ensuring customer satisfaction.

Kroger

Grocery Associate

May 2023 – Nov 2023

Bloomington, IN

- Kroger is a large retail grocery chain offering a wide range of fresh produce, grocery items, and services to customers.
- Assisted customers, restocked shelves, maintained inventory, and provided application support.

IU Dining, Willkie C-Store

Deli and Sales Associate

Jan 2021 – Feb 2023

Bloomington, IN

- IU Dining provides dining services and retail operations for Indiana University's community.
- Delivered exceptional customer service at the deli counter.
- Handled inventory tasks, restocked products, and managed registers effectively.

Starfish ETL

Data Engineering Intern

May 2021 – Aug 2022

Des Plaines, IL

- Starfish ETL is a data integration platform, facilitating seamless data connections between various software systems.
- Built normalized CRM data models to streamline client operations.
- Created SQL databases and migration maps using Starfish ETL software.

EDUCATION

Indiana University

Bachelor's Degree in Data Science

Aug 2022 – Present

Bloomington, IN

PROJECTS

Secure Flask Web App

- Built a Flask web application that allowed users to post, edit, and view events stored in a SQL database.

Network Troubleshooting (GenCyber Bootcamp)

- Set up and analyzed sample network traffic using Wireshark to practice packet inspection and protocol analysis.
- Resolved simulated issues like DNS failures and TCP retransmissions to deepen understanding of networking fundamentals.

Productivity Scripts with AutoHotkey

- Created custom AutoHotkey scripts to streamline desktop usability, including quick volume control and mouse sensitivity adjustment.
